Curriculum Vitae

Personal Details

Full Name: Kelvin Khotso Kgarudi
Phone: +27 79 523 8702, +27 69 545 3973
Email: kgotsokgarudi@gmail.com
LinkedIn: [(18) Kelvin Kgarudi | LinkedIn](#)
Location: Potchefstroom, South Africa

Professional Summary

A highly motivated and analytical individual with a passion for data science, machine learning, and AI-driven solutions. Skilled in developing, evaluating, and deploying predictive models for real-world challenges. Experienced in using Python, R, and C++ coding, fraud detection, data analysis, and visualization. Dedicated to continuous learning, teamwork, and using technology to solve meaningful problems.

Education

BSc in Information Technology (Data Science Specialization)
Eduvos — 2023-2025

- Key Modules: Machine Learning, Computer Skills (Excel), Web Server Management, Scientific Programming

- Capstone Project: *AI-driven Fraud Detection Monitoring System*

Technical Skills

Programming Languages: Python, R, SQL, C++
Machine Learning: Logistic Regression, Random Forest, Gradient Boosting, SVM, Neural Networks
Libraries G Frameworks: Scikit-learn, TensorFlow, PyTorch, Pandas, NumPy
Data Visualization: Matplotlib, Seaborn, Plotly, Excel
Tools: Git, VS Code, Streamlit, Jupyter Notebook
Other: Data Preprocessing, Feature Engineering, Model Evaluation, Data Cleaning

Projects

Credit Card Fraud Detection — Group Project (2025)

- Developed and compared ML models (Logistic Regression, Random Forest, Gradient Boosting, SVM, Neural Networks).

- Evaluated models using F1-score, ROC-AUC, and Precision-Recall metrics.

- Deployed a real-time fraud detection dashboard with **Streamlit**.

Human Emotion Detection

- Model detects whether a human face is happ, sad or angry using YOLO, TensorFlow.

AI Sentiment Analysis Tweets Web App

- Takes tweets as input (either manually entered, uploaded, or fetched via API),

- Analyzes their sentiment using NLP techniques,

- Displays the results in a user-friendly format (charts, labels)

- Link: https://sentiment-analysis-tweets-aw48wdsgqjzcn6pgaznxs4.streamlit.app/

Stocks, FX, Crypto Forecast App

- Forecasting market using fbprophet and deep learning.
- Trading insights for Forex, Crypto, and Stocks.

Student survey dashboard (Eduvos)

- Load and process survey data (probably from student_survey.R).
  Display results using interactive charts, tables, or filters.
- Allow users (educators or researchers) to explore responses by category (age, satisfaction, preferences).

Certifications

- **IBM Machine Learning Professional Certificate (Coursera)**

- **Basic Statistics in Python (Correlations and T-tests)**

- Introduction to web development HTML, CSS and JavaScript

Interests

AI research • Christian mentorship • Technology innovation • Reading • Coding
